I am an Informatics Engineering graduate with an Associate Degree from Politeknik Negeri Bandung who has an interest in web and mobile development, especially in the field of Frontend Developer. I have experience in entry-level web development, such as creating user interfaces using frontend technologies like HTML, CSS, and JavaScript, and working with frameworks like React.js and Next.js to build interactive and responsive user experiences. I also understand the basics of state management, API consumption, and the use of UI libraries such as Tailwind CSS or Bootstrap.

Education

Politenik Negeri Bandung – Bandung   Sep 2021 – Aug 2024

Associate Degree in Informatics Engineering, 3.29/4.00

WORK EXPERIENCE

PT Linxchat Global Indonesia – Tangerang Selatan   Jun 2023 – Sep 2023

Frontend developer – Intern

In this internship, I was assigned as a web developer using Next.js framework for frontend web development. Linxchat already has a mobile version and I am responsible for developing the website version of Linxchat.
